The ~~Chief~~ Secretary to the Dewan of Mysore,

SIR,

With reference to your docket No 5-2 Dated 13th ultimo, requesting to furnish a report on the repairs to the pond called Gonuklu, near Hardanhalli, Hunsepur Taluk I subject to sorg Dussera Speeches I have the honor to state that the pond when Mr Rangaswamiengar had occasion to inspect was it appears from his notes not visible from the road side owing to the growth of jungle and slender trees Such of the trees as screened the view of the pond were ordered to be cut down and removed and a way was also directed to be opened from the main road to enable travellers to fetch water therefrom —

The Bundar near the pond is very much out of repair.

The repairs to the pond were stopped

as a useful work by the members of the District Fruit Board of the Mysore Circle at the meeting held on the 25th November 1892, and the same was recorded for consideration.

In regard to the Inam land referred to, as being in a neglected condition, the report of the Amildar is awaited.

SIR,

In continuation of my letter No 157 dated 12th Ultimo, I have the honor to state that the Amildar of Chamrajnagar has reported that there was no Inam land granted for a flower garden near the pond (Gommka). But land No 195 measuring A. G. Y. 0-1-8 situated to the west of the pond and attached to the village of Bandigere is shewn as waste in the accounts on account of a flower garden and no assessment has been fixed thereon

2. The land is said to contain the trees noted in the margin, besides a number of date trees indicating that it was once a tope and a flower garden

The Amildar also reports that one Hardan halli Siddappa Naik late Kelledar was looking after the garden with the peons of the Khalikat establishment, that since the abolition of this Department 30 or 40 years ago, it has been lying waste, though in 1877 under the orders of the Sub Division Officer, Ranjangud, the Patél of Hardanhalli was for some time taking care of it, and that since the Patél's death, darkhasts received for its cultivation have been invariably rejected for the reason that it was intended for a flower garden.

3. Lately, however, in July 1893, the proposal of one Rachashetty to remove the date trees and plant up the land for charitable purposes was accepted and the land made over to him accordingly.

I have the honor to be
Sir
Your most obedient Servant
